SCRUBIE

Non-scratch Cleaning Sponge

A white polyester mesh, wrapped around an absorbent urethane sponge allows for gentle no scratch cleaning. This is the ideal sponge for cleaning non-stick surfaces, china, enamel, countertops and porcelain.

Color: Yellow **Size:** 2.8" x 4.3" x 0.6" **Pack:** 24

FAQ

How durable is the SCRUBIE sponge?

The SCRUBIE is constructed of a polyester mesh surface that encases an absorbent sponge. This sponge has been designed for commercial use and is very durable.

Will the sponge mold?

The synthetic sponge will not mold. Rinse in hot water after each use and squeeze excess liquid from the sponge after each use.

Will the SCRUBIE sponge scratch surfaces?

This pad has been designed to clean without scratching. It is ideal for non-stick cookware, china, porcelain and countertops. It is always best to test in an inconspicuous area before use.

What is the best way to care for the SCRUBIE sponge?

Simply rinse and squeeze dry after each use. For a more thorough cleaning the sponge may be run through a dishwasher.
