4.0 Use

The **EverWear**, extra rugged, anti-fatigue mat, with its expanded non-phthalate vinyl and SBR rubber construction, is ideal for areas where a heavy duty, cushioned mat is required. These mats have a slip-resistant surface with beveled edges to maximize safety. Reduces back and leg stress on jobs that require long hours of standing such as assembly lines, shipping departments and retail counters. Also provides noise control, reduces breakage and insulates walk-in coolers.

5.0 Construction

The **EverWear** mat is constructed of an expanded non-phthalate PVC.

- Available in:
- Ribbed Surface
 - Pebble Surface

6.0 Labeling

Labeling is to clearly identify product, size, and quantity. Americo brand or private label is available for this product.

7.0 Product Care

Cleans easily by sweeping or wiping with a mild detergent and rinsing or washing with an ordinary garden type hose.
