Twister White Pad Product Specifications

3.0 Use

TWISTER™ White will remove heavy scratches from stone, VCT and concrete surfaces. Leaves floors with a silky matte, cleaned and well prepared surface for the subsequent TWISTER™ steps. Ideal for heavy restoration.

4.0 Construction

The TWISTER™ White Pad is made of 100% recycled polyester impregnated with billions of microscopic diamonds.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity.

6.0 Environmental Initiatives

- Polyester fiber used in our pads come from 100% post consumer and industrial recycled waste product.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

7.0 Directions for Use

Remove sand and debris on floor surfaces by dry mopping. Dry mopping reduces the wear on your TWISTER™, as well as on the floor and cleaning tools. Always mount the TWISTER™ pads on Velcro holders without central locks. The pad is fastened with the text “This side up” upwards toward the Velcro holder. Now you can clean, polish and preserve the brilliance of your floor. The result will be a clean, sparkling floor that looks inviting.

8.0 Product Care

For continued good results, it is important to clean your pads thoroughly by rinsing them off with water. This removes dirt that can wear on the floor and reduce the life of the TWISTER™ pad.
