

Maroon Xtreme!

## Heavy-Duty Floor Restoration Pad

Promote sustainability with the environmentally preferred **Maroon Xtreme** Heavy-Duty Restoration Pads.

- No harsh chemicals needed
- Ideal for extra heavy-duty wood floor refinishing. Also ideal for fast removal of coatings from floors like VCT, terrazzo and others
- Aggressively strips and deep scrubs for a chemical-free removal of floor finishes
- May be used wet or dry
- Recommended for use on rotary and oscillating floor machines

# FAQ

# Maroon Xtreme!

## Where can I use Maroon Xtreme?

You can use Maroon Xtreme on any hard surface flooring, including wood.

## With what types of machines do I use Maroon Xtreme?

You can use any standard speed or oscillating machine.

## Is Maroon Xtreme used wet or dry?

Maroon Xtreme can be used both wet or dry. No harsh chemicals are required, and we recommend using with a neutral cleaner or plain water.

## What are the differences in the Maroon Xtreme, Maroon Eco and the Maroon Wood Prep Floor Pads?

	<b>Maroon Xtreme</b> <b>Extremely Aggressive</b> Use for heavy-duty removal of floor finish. Also ideal for restoration (removal) of urethane coats on wood floors.
	<b>Maroon Eco</b> <b>Very Aggressive</b> Use for removal of floor finish, wet or dry, without the need for harsh chemicals.
	<b>Maroon Wood Prep</b> <b>Least Aggressive</b> Use for light cleaning on wood and to add scratch patterns in-between laying new coats of urethane.

## When would I use Maroon Xtreme instead of Maroon Eco?

You can use Maroon Xtreme in exactly the same applications as Eco, but it is ideally used in the toughest stripping or wood floor restorations.

## What is the average lifespan of Maroon Xtreme?

Pad life will vary by use and care, but you can expect a minimum of 50,000 square feet of use for removal of floor finishes. Life will be 1,000 linear feet per pad on wood floor restoration.

## What sizes of Maroon Xtreme pads are available?
