FAQ

THE BEAST™ EXTREME STRIPPING PAD

Q: What is the average lifespan of THE BEAST™ pads?

A: Used on recommended floor types, you can expect to get up to 50,000 square feet out of **THE BEAST™** floor pad. Preventing finish or soil from drying on the pad, along with proper cleaning after every use, will prolong the life of the pad.

Q: Can THE BEAST™ be used for dry stripping?

A: No. **THE BEAST™** pads are designed to be used in conjunction with traditional floor stripping solutions.

Q: Why would I use THE BEAST™ instead of a regular Black Strip floor pad?

A: **THE BEAST™** is far more aggressive than standard black stripping pads, and will remove finish faster and perform more effectively on tough, heavily compacted finishes. **THE BEAST™** will stand up to even the toughest jobs!

Q: Can THE BEAST™ be used with any stripping solution?

A: **THE BEAST™** can be used, as directed, with any industry recognized floor stripping solution.

Q: What is the recommended machine speed (RPM's) for the THE BEAST™?

A: **THE BEAST™** is designed to be used on round machines up to 350 RPMs, and on oscillating machines up to 2,400 RPMs.

A: What floor types can I strip with THE BEAST™?

A: **THE BEAST™** can be used to remove floor finish from vinyl tile, terrazzo, natural stone and concrete.
