

SmartScrub™

One pad cleans and shines floors in just one step.

PRODUCT SPECIFICATIONS

1.0 Description

The SmartScrub™ pad is constructed of polyester fibers in a textured nonwoven fabrication.

2.0 Properties

Property	Value
Thickness	1.14 in 29 mm (+/-10% tolerance)
Weight	53 osy 1797 gsm (+/-10% tolerance)
Fiber Type	Recycled Polyester
Binder System	Cross-linkable water based resin
Binder Application	Spray/Dip
Abrasive Application	Yes
Abrasive	Spray/Dip
Color	Azure Blue/Yellow
Pack	5 per case

Full Cycle® Products are certified by Green Seal® for Environmental Innovation based on faster biodegradation in landfill conditions and 100% recycled content/natural fiber. Green Seal.org/GS20

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results. Please contact Americo with any questions or concerns.

SmartScrub™ Cleaning and Shining Pad Product Specifications

3.0 Use

This pad is highly effective for both cleaning and polishing floors. Ideal for use on VCT, LVT, vinyl, stone, terrazzo, concrete, marble, granite, and rubber. Use on automatic scrubbers or standard speed floor machines up to 350 rpm. Not designed for high speed burnishing.

4.0 Construction

The SmartScrub™ pad is made of 100% recycled polyester fibers and water based resins. This pad has been designed for use on both sides.

5.0 Labeling

Labeling is to clearly identify product, size, and quantity. Americo brand or private label is available for this product.

6.0 Environmental Initiatives

- Polyester fiber used in our pads come from 100% post consumer and industrial recycled waste product.
- Full Cycle™**, formulated to biodegrade* in a fraction of the time that it takes conventional floor pads once discarded into an active landfill.
- Water Based Latex Resins are used in the manufacturing process. No phenol-formaldehyde resins are used in our binding process.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

7.0 Directions for Use

Use SmartScrub™ as a daily cleaning pad in a low speed (175-350 rpm), wet application. Brilliant shine will be maintained or increase over time as used. It will also remove dirt, scuff marks, and imperfections on the floor. SmartScrub™ was designed to be primarily used on coated floors but can be used on uncoated as well. SmartScrub™ should be used wet on a low-speed auto scrubber. It is not designed to be used on a high speed burnisher. Continue using the SmartScrub™ until the azure blue top coat is gone and all that's left is the yellow core on the "work zone" of the pad. You can use plain water or a neutral solution.

8.0 Product Care

To prolong the life of this product it may be washed using a hose with a pressure spray nozzle to remove soil. Allow pad to dry completely before using again.
