

Twister™ Hybrid

Velcro Holder

Star Pad

Segments

Completed Pad

PRODUCT SPECIFICATIONS

1.0 Description

The Hybrid™ method is a combination of both light grinding and the Twister™ maintenance method that will refurbish a worn stone floor with major scratches or “orange peel”. Start with the Hybrid™ Black disc and immediately follow up with the Hybrid™ Red disc for light grinding of the stone surface. Finish by using the standard Twister™ process to bring up the shine. The Hybrid™ tools consist of three different items; the pad holder, the pad and segments. The pads are sold in pairs and the holders individually. The segments are sold in boxes of six.

2.0 Properties

Property	Velcro Holder	Star Pad	Segments
Thickness	.49 in 12.5 mm	.59 in 15 mm	.47 in 12 mm
Weight	40 osy 1356 gsm	20 osy 678 gsm	1.9 oz./ea. 54 g
Fiber Type	NA	Proprietary	NA
Binder System	NA	Proprietary	NA
Binder Application	NA	Spray	NA
Abrasive Application	Spray	Spray	Molded

Twister Hybrid Product Specifications

3.0 Directions for Use

Best effects are achieved using a heavy single scrubber. If used with an auto scrubber it must have adequate down pressure.

Start with the Hybrid™ Black disc and immediately follow up with the Hybrid™ Red disc for light grinding of the stone surface.

Water is important in order to have the slurry easy to remove with a wet vacuum or a scrubber dryer. Add more water if you see that the slurry get too thick.

On a smooth surface it can take some time before the tool opens and starts to cut. You can speed this process up by using it on a rougher surface first.

Finish by using the standard Twister™ process to bring up the shine.

4.0 Sizes

Velcro Holder

Disc Size (Diameter) (O.D. ± 0.06 inch)	Center Hole
13 inch	3.25 inch
14 inch	3.25 inch
17 inch	3.25 inch
20 inch	3.25 inch
21 inch	3.25 inch

Star Pad

Disc Size (Diameter) (O.D. ± 0.06 inch)	Center Hole
13 inch	3.25 inch
14 inch	3.25 inch
17 inch	3.25 inch
20 inch	3.25 inch
21 inch	3.25 inch
